

# Oral Health Support

**Does your child have a Learning Disability and struggle when having their teeth brushed?**

The Community Children's Learning Disability Health Service is providing additional support to improve oral health outcomes for children with Learning Disabilities.

We can help you with:

- Information about different toothbrushes and toothpastes to use
- De-sensitisation support
- Visual support and practical ideas
- Support to access a dentist

Please contact the Single Point of Access below to request a referral form.
