

Oral Health Support for Children with Learning Disabilities

Does your child have a learning disability and struggle when having their teeth brushed?

The Community Children's Learning Disability Health Service is providing an online workshop about oral health.

This includes:

1. Why oral health is important
2. Oral pain
3. Visiting the dentist
4. Tips and strategies around toothbrushing

Please use the QR Code below to register for the online workshop which is taking place on MS Teams on:

- **Wednesday 12th February 2025 13:00-14:30**

t: 0300 247 0090

If you need support please call the SPA on the above number and they will request a member of the LD team calls you back.
